Arizona Tile Highlights Timeless Design with Della Terra® Quartz Surfaces

Arizona Tile continues to bring enduring style and performance to the market with new Della Terra® Quartz offerings that balance beauty, durability, and versatility. Crafted with up to 94% natural quartz—one of the hardest minerals found in nature—and blended with advanced polymers, Della Terra® Quartz surfaces are non-porous, easy to maintain, and built to last, making them an ideal choice for both residential and commercial applications.

New Quartz Highlights

Among the featured designs is Desert Pearl, a warm neutral surface with delicate gold veining that flows diagonally across the slab. Its slightly textured appearance adds visual interest while remaining subtle enough to complement a wide range of interior styles.

Firenze offers a striking contrast with a pure white background and a sweeping network of soft grey veins. The intricate, all-over pattern creates a sense of movement and depth, making it well suited for spaces that call for refined sophistication.

Valbella Gold Della Terra® Quartz

The Valbella collection introduces two distinct yet complementary looks. Valbella Gold leans warmer, featuring soft veining and subtle depth that pair effortlessly with natural materials and neutral palettes. Valbella Grey takes a cooler approach, delivering a more understated aesthetic ideal for streamlined, contemporary interiors.

For those seeking a bold statement, Violet Luxe is inspired by the timeless appeal of Calacatta Viola marble. A creamy white background is accented by deep violet webbed veining that flows in both narrow and wide formations, creating a dramatic and luxurious surface.

Completing the lineup is Willow, a bright white quartz design highlighted by fine gold veining that gently fades into soft, wispy edges. The delicate detailing brings warmth and sophistication, making it an ideal choice for interiors that seek a subtle touch of glamour.
